## CYCLONE II MODEL 180-12 AIR COMPRESSOR

This compressor never needs oil or lubrication. On/off switches are conveniently located directly on the units. Four attached suction cup feet eliminate compressor "movement". Each unit operates one airbrush, with a pressure of 30 PSI for most airbrushes. Portable and light weighing only 9 pounds, this compressor includes a durable 6" cord with three prong plus and a 1/10 horsepower motor. A full one-year warranty and ETL Certification is included. This unit also has auto shutoff.

BA180-12 .....\$178.00

# AIRBRUSHES

## “DETAILER” AIRBRUSH by Badger DUAL ACTION INTERNAL MIX

Features a small built-in fluid cavity which holds a small amount of paint, allowing you to work very close to your work surface without interference of a paint bottle or color cup.

The gravity feed action can work at lower air pressures, thus enabling you to move your hand slower for more precise detail. The self-lubricating teflon needle bearing prevents color back-up and eliminates wear to the needle. (Medium needle is included.) It also features a counter-balanced handle for precise balance. Ideal for extra fine detailing, i.e., feather-edging. This airbrush will spray from a pencil line thickness to 1" wide.

#BA100-SG ..... \$85.00

### “DETAILER” PARTS: (Fit Model #BA100-SG)

#### TIPS

#BA50-0391 Fine ..... \$5.90
